

## **More powerful and faster than ever before: Audi RS 6 Avant performance and RS 7 Sportback performance**

Audi RS 6 Avant and RS 7 Sportback stand for immense driving performance with maximum everyday practicality. The new Audi RS 6 Avant performance and RS 7 Sportback performance models are now more powerful and faster than any Audi RS 6 and RS 7 that came before. Their potent 4.0-liter V8 biturbo TFSI engines produce 463 kW (630 hp) and have a maximum torque of 850 Newton meters. These new models spearhead a history that began almost 30 years ago with the Audi S6 Plus.

You can find more information in the [press folder](#).

The Audi Group is one of the most successful manufacturers of automobiles and motorcycles in the premium and luxury segment. The brands Audi, Bentley, Lamborghini, and Ducati produce at 21 locations in 12 countries. Audi and its partners are present in more than 100 markets worldwide.

In 2022, the Audi Group delivered 1.61 million Audi vehicles, 15,174 Bentley vehicles, 9,233 Lamborghini vehicles, and 61,562 Ducati motorcycles to customers. In the 2022 fiscal year, AUDI Group achieved a total revenue of €61.8 billion and an operating profit of €7.6 billion. Worldwide, more than 87,000 people worked for the Audi Group in 2022, over 54,000 of them at AUDI AG in Germany. With its attractive brands, new models, innovative mobility offerings and groundbreaking services, the group is systematically pursuing its path toward becoming a provider of sustainable, individual, premium mobility.

***The equipment, data and prices specified in this document refer to the model range offered in Germany. Subject to change without notice; errors and omissions excepted.***

*\*The collective fuel/electric power consumption and emissions values of all models named and available on the German market can be found in the list provided at the end of this text.*

Fuel/electric power consumption and emissions values\*\* of the models named above:

**Audi RS 6 Avant performance**

Combined fuel consumption in l/100 km: 12,7 – 12,2 (18,5 – 19,3 US mpg);

Combined CO<sub>2</sub> emissions in g/km: 289–277 (465.1–445.8 g/mi)

**Audi RS 7 Sportback performance**

Combined fuel consumption in l/100 km: 12,5–12,0 (18,8 – 19,6 US mpg);

Combined CO<sub>2</sub> emissions in g/km: 284–273 (458.7–439.4 g/mi)

**Audi RS 6 Avant**

Combined fuel consumption in l/100 km: 12,7–12,1 (18,5 – 19,4 US mpg);

Combined CO<sub>2</sub> emissions in g/km: 289–276 (465.1–444.2 g/mi)

**Audi RS 7 Sportback**

Combined fuel consumption in l/100 km: 12,6–12,0 (18,7 – 19,6 US mpg);

Combined CO<sub>2</sub> emissions in g/km: 285–272 (458.7–437.7 g/mi)

*\*\*The indicated consumption and emissions values were determined according to the legally specified measuring methods. The WLTP test cycle completely replaced the NEDC on January 1, 2022, which means that no NEDC figures are available for vehicles with new type approvals from after this date.*

*The figures do not refer to a single, specific vehicle and are not part of the offering but are instead provided solely to allow comparisons of the different vehicle types. Additional equipment and accessories (add-on parts, different tire formats, etc.) may change relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO<sub>2</sub> emissions and the performance figures for the vehicle.*

*Due to the more realistic test conditions, the consumption and CO<sub>2</sub> emission values measured are in many cases higher than the values measured according to the NEDC. This may result in corresponding changes in vehicle taxation since September 1, 2018. Additional information about the differences between WLTP and NEDC is available at [www.audi.de/wltp](http://www.audi.de/wltp)*

*Further information on official fuel consumption figures and the official specific CO<sub>2</sub> emissions of new passenger cars can be found in the “Guide on the fuel economy, CO<sub>2</sub> emissions and power consumption of all new passenger car models”, which is available free of charge at all sales dealerships and from DAT Deutsche Automobil Treuhand GmbH, Helmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, Germany ([www.dat.de](http://www.dat.de)).*
